**RE: GIMME 5 LIFESKILLS HIV/AIDS EDUCATIONAL GAME TRAINING SESSION:
01.04.2009: ST. ALBANS MANAGEMENT AREA**

1. The above-mentioned refers.
2. We would hereby wish to extend our deepest appreciation to Dr. Kolnick and his team for availing their time to train the Centre Coordinators HIV/AIDS and the peer educators on this interesting and valuable tool to use in our awareness and educational efforts with regards to HIV/AIDS.
3. The session was found very interesting and educational by our team who is responsible for the rendering of HIV/AIDS programmes and services.
4. The Gimme 5 game would also be very relevant and helpful to us in the sense that we have people of different intellect and by using this game to educate it would have a greater impact in terms of education.
5. The tool is also very good since it is very colorful in design and would make it easier for the offenders to understand whatever topic we want to discuss or educate them on.
6. Thank you so much for asserting us with this tool.
7. Your efforts are greatly appreciated.

**GEORGE J.D.
